Not a complaint or a criticism, but rather a polite suggestion:

We may want to review with John and Mark the search parameters for daily clips. Seems the Morning Clips and Daily Digest of late have been heavy with national stories, and missing some key regional interests that are certain to be of interest to the RA and senior staff.

Two examples of “not included” stories I found this morning. Both on a couple of R7’s highest visibility issues, and both were posted to the web last night:

**KSDK Channel 5, St. Louis – Flood debris pickup continues in Missouri counties – 1/26/16 -**  
Cleanup crews are moving into new neighborhoods devastated by flooding. It's been almost a month since area rivers rose to record levels, leaving hundreds of homes underwater.

**KTVI Channel 2, St. Louis – Senator wants state to buyout homes near Coldwater Creek, West Lake & Bridgeton landfills -** A Missouri senate committee is considering a bill to buy out North County homes. Senator Maria Chappelle-Nadal's bill would allow homeowners to let the state buy their homes if they live within three miles of the West Lake Landfill, Bridgeton Landfill, or Coldwater Creek.
